If Buyer is exempt, Buyer shall provide Company with the documentation necessary to support such a claim and to allow Company document its decision not to collect such tax.

5. Changes & Cancellation. If Buyer requests changes to Product after Company’s acceptance of Buyer’s purchase order, Company will issue a revised Proposal specifying any changes in price or time of delivery associated with the requested change. The proposed change shall not become effective unless and until Buyer issues a purchase order recording the change in accordance with Company’s revised Proposal. Buyer agrees to pay to Company a cancellation charge, computed on the following basis: Company’s full costs incurred to date, including without limitation, costs of all engineering work, work in progress, raw materials, supplies, administrative expenses and overhead (overhead equal to 20% of purchase price) plus all commitments made by Company in connection with the order, less such allowances as Company may be in position to make for any standard components and scrap material, in Company’s sole determination. Buyer shall make all payments in full without any deduction for any claim or setoff or recoupment. The payment terms stated in any Proposal are conditioned upon approval of Buyer's credit and may be withdrawn or amended at any time by Company at its discretion if (a) Buyer does not maintain a satisfactory credit rating or (b) if Buyer does not maintain its account with Company in good standing. Company reserves the right to change these credit terms, refuse shipment or cancel unfilled orders at any time when the financial condition of Buyer fails to meet the requirements of a satisfactory credit rating or when the previous payment record of Buyer to Company reasonably warrants such action. If delivery dates are delayed by Buyer for reasons within its reasonable control, payments are nevertheless due when Company is prepared to make delivery according to the delivery schedule. Payment is not contingent upon installation, use or operation of any Product(s). No cash discounts for early payment will be granted. 9. Security Interest. Company retains a security interest ("Security Interest") in the Product to secure any portion of the purchase price not paid. These terms and conditions constitute a written security agreement provided by Buyer to Company covering all Product sold by Company to Buyer. Company may record a Uniform Commercial Code Financing Statement evidencing this Security Interest. Company has all rights and remedies accorded by law or equity to a secured seller, including the right to enter upon the premises where the Product shall be located for purposes of removing or rendering them inoperative, and all such rights and remedies shall be cumulative. Buyer shall maintain insurance against all risks to cover full replacement value of the Product until Company has been paid in full and agrees to do all things and acts necessary to perfect and maintain such Security Interest for the benefit of Company.

10. Title and Risk of Loss. Title and risk of loss or damage to the Product shall pass to the Buyer upon tender of delivery F.O.B. Company's facility or other place of manufacture. Any claim by Buyer for damage occurring during shipment shall be made directly against the freight carrier, with a copy of such claim forwarded to Company within ten (10) days. Any shipments returned to Company as a result of Buyer's unexcused delay or failure to accept delivery will require Buyer to pay all additional costs incurred by Company.

11. Product Acceptance. All Product will be deemed accepted by Buyer if Buyer does not provide Company with a written notice of rejection within 5 days of the date of delivery to Buyer, which notice shall specify in detail any reasons for rejection.

An RA (Return Authorization) must be accepted and accompany the suspected defect when submitted to Aimco for inspection. Shipping expenses will be the end user's or dealer's responsibility unless stated differently by Aimco. Aimco's RMA is based on the findings of their investigation and will determine the refund of shipping costs, repair costs, replacement, or refund will be at the discretion of AIMCO and their findings.

15. Intellectual Property. Company is not liable to Buyer for any claims or damages of Buyer relating in any manner whatsoever to any infringement of any patent, copyright, trademark, trade secret, or any proprietary right of any third party. Buyer shall indemnify and hold Company harmless against any and all such claims or damages arising out of Buyer's use of the Product. Buyer acknowledges and agrees that: (a) any and all Company's Intellectual Property Rights are the sole and exclusive property of Company or its licensors; (b) Buyer shall not acquire any ownership interest in any of Company's Intellectual Property Rights; (c) any goodwill derived from the use by Buyer of Company's Intellectual Property Rights inures to the benefit of Company or its licensors, as the case may be; (d) if Buyer acquires any Intellectual Property Rights, rights in or relating to any Product (including any rights in any trademarks, derivative works or patent improvements relating thereto) by operation of law, or otherwise, such rights are deemed and are hereby irrevocably assigned to Company or its licensors, as the case may be, without further action by either of the parties; and (e) Buyer shall use Company's Intellectual Property Rights solely for purposes of using the Product under this Agreement and only in accordance with these terms and conditions. In addition, Buyer hereby agrees that for the 2-year period following any Proposal, Buyer shall not interfere in, or solicit or induce any change in or cessation of, the business relationship between Company and any of its customers, independent contractors, agents, representatives, contract manufacturers, suppliers, or investors; nor solicit or induce any Company employees or other agents to terminate their employment or other relationship with Company.

17. Performance Standards. In the event Product will be used by Buyer to process feed material ("Feed Material"), the Company may, prior to the Product order process, test the Feed Material, including the size, hardness, surface finish, porosity, moisture content, product temperature and abrasiveness thereof (collectively the "Feed Material Characteristics").
